

REMARKS

Upon entry of the above amendment, Claims 32 and 35-41 are pending in this application. The present application is a continuation of co-pending application Serial No. 10/414,885, which is a divisional of parent application Serial No. 09/546,817 (now issued as U. S. Patent 6,610,878).

Original Claims 1-45 were subject to restriction in parent application Serial No. 09/546,817. In particular, the claims were divided into the following five groups:

Group I - Claims 1-6, 30, 31, 33, 34;

Group II - Claims 15-29, 36-41;

Group III - Claims 7-14, 42-45;

Group IV - Claim 32; and

Group V - Claim 35.

The foregoing Amendment cancels from the present application those claims that were previously granted (Claims 1-6, 30 and 31 in 09/546,817), presently stand allowed (Claims 15-29 in 10/414,885) or are co-pending in a further divisional application (Claims 7-14 and 42-45 in 10/417,283). Thus, the present Claims correspond to claims contained in Groups II, IV and V of the restriction in parent application Serial No. 09/546,817.

Claims 32 and 35-41 are believed to be in patentable form. Action on the merits is respectfully requested.

Respectfully submitted,

Eastman Chemical Company
